Jasper van Grootel

The new Halo collection by Jasper van Grootel consists of a variety of ring shaped lighting fixtures in different sizes and colors inspired on the famous Retro Fair lighting signs. The A++ led retro light bulbs give them an edgy look and, in combination with the wing shaped aluminium, also an architectural touch. The amount of sparkling light coming from the Halo disks truly gives you a feeling of glory.

All the fixtures are crafted of high quality anodized aluminum that makes them light-weighted and very sustainable.

As being a perfect addition to the Aura rings with whom they combine very well, we are more than happy to welcome this new collection to the holy design family of JSPR.

halo large
height 30 mm | diameter 1500 mm
36 bulbs

halo medium - double
height 30 mm | diameter 1000 mm
47 bulbs
